Summary

Project Name

Patterns

Project Repository

https://github.com/Lukeekul/wahlzeit

Project CI

https://travis-ci.org/Lukeekul/wahlzeit

Current Tag

adap-hw09 on master

Diff to last tag

https://github.com/Lukeekul/wahlzeit/compare/adap-hw08...Lukeekul:adap-hw09

Overview

- Implementing Value Type for Coordinate Classes
- Adapting Tests for Coordinate Classes.

Details

Implementation

- All Constuctors of Coordinate Leaf Classes are now private. Coordinate Instances get by shared by calling getCoordinate method.
- GetCoordinate Methode implemented as in lecture described.
- Unfortunately Build Error on latest commit, some issues because interchangability of Coordinate Classes. The interchange methods *asCartesianCoordinate()* and *asSphericCoordinate()* need to be rewritten.
